SUPRA Technology is the Answer.

New to Ziemer?

Invest once. Continue advancing. A new FEMTO Z8 NEO comes equipped with the latest SUPRA Technology, providing access to a continuously evolving platform that supports new clinical applications, future innovation, and sustainable practice growth.

Already a Ziemer FEMTO User?

Turn today's investment into tomorrow's opportunity. With SUPRA Technology, existing FEMTO Z8 users can access the latest advancements without replacing their system, helping expand clinical capabilities, preserve capital, and continue delivering exceptional patient outcomes as practice needs evolve.

Protect Your Investment

Extend the life and capabilities of your existing platform through powerful software enhancements and next-generation functionality, SUPRA ensures you continue growing clinical capabilities while maximizing long-term return on investment.

Built for Security & Reliability

Built on a new-generation technology foundation, SUPRA technology delivers enhanced cybersecurity, reliable operation, and the confidence to support your practice now and into the future.

Future-Ready Technology Platform

By combining advanced hardware with a continuously expanding software ecosystem, SUPRA technology helps your practice benefit from future innovations, new clinical applications, and sustained competitive differentiation without replacing your core platform.

New Software Ecosystem (FlowSuite)

SUPRA introduces new procedures such as CLEAR Supra, CLARIGS, SOFT, Ring Tunnels & Segments, and more, all integrated within the FlowSuite operating system.
